Whispers from The Brighter World

Saturday, June 18, 2016 – 10:00 a.m.

Enter into silence and contemplation, where you receive these very special energies emanating from the 'choir' of the spiritual Masters of this Mission and beyond. This ritual has become distinctive – it attracts the attention of many entities, fixed on the benefits of this Sahaj Marg path.

It has taken on in recent years a very important role, and it traces its path in a manner unexpected by the first abhyasis to have followed us on this path, one whose effects are rather special. We are happy to see its development in the world, and these messages translated into several languages and thus within reach of all these beings wishing to receive us. The sacred union of hearts produces results of which you have no idea; they trace in time an indelible mark, very important for all.

We will continue with the transmission of these messages a while longer; most of our abhyasis perceive the importance of this very special energy which goes straight to the heart, one might say. As for our dear Kamlesh, he works with his whole being to disseminate what emerges from this unparalleled path. He creates, he acts, carried by our energies and the inspiration that accompanies him over the course of days.

He is the man for the job, one could say; he sees far ahead – in his own way, but inspired by his spiritual fathers, who are very attentive to his dear person. And so continues what must be for this path so distinctive in its action.

May all fully avail themselves of it and realise its importance. To all: faith, love and personal fulfilment.
