Whispers from The Brighter World

Tuesday, June 21, 2016 – 10:00 a.m.

All is well, be at peace, your life has not been a bed of roses, but what an achievement - you can rejoice and enjoy it fully. Your heart aspires to the Divine, it lives like this. It is constantly calling, and we love that. The growing number of our abhyasis reinforces the egregore. The benefits this Mission provides are multiplying, and they are building a special field, in more ways than one.

When the time comes to take stock, it will be truly appreciable. Nevertheless, there is still a lot to be done. The solid foundations have been laid, and it now remains to consolidate the position of this extraordinary edifice in the world. It will assert itself accordingly. The future will favour positions that are unimaginable today.

Minds will open up in this direction, and in the future significant transformations will take place that will make it possible to create what is not conceivable today. Sahaj Marg is destined to take on a grand scale, led and supported by many of good will, who will support and follow the Master in his exemplary action. Nothing is done without valid reasons; Sahaj Marg would not be where it is today without great decisions taken in the past, positioning this path as it should be, for a more important action in this world.

There remains the future. A great space is opening up for Sahaj Marg. Many of good will will act for this and will contribute to an unprecedented expansion. 'The best

is yet to come", it is sometimes said here, so why not envision it and make it happen. There lie our most fervent wishes.
