Whispers from The Brighter World

Friday, June 24, 2016 – 10:00 a.m.

Herein, we manifest ourselves in the silence and harmony that prevail within and around you. A soothing vibratory atmosphere is necessary, in order to harmonise our energies with yours. This contact has renewed itself for so many years that it has become a special ritual that time will remember, thanks to this considerable number of messages, an unprecedented fact in history. We can never say it enough, Sahaj Marg benefits, with these writings, from a very precious asset.

We all rejoice in this, here, we who have seen the effects produced by the very first messages, given to our dear Parthasarathi who was somewhat surprised by this mediumistic transmission. This fact is not new in this world; the great spiritual ways that exist today find their source in manifestations of this kind, which can create an asset, a reference, and above all teachings capable of lasting a very long time on this Earth.

'Doesn't everything have its raison d'être.'

Our dear great son Kamlesh is an innovator, he will leave his mark on this Mission, in more ways than one. Decisions will be made, over time, which will prove justified and necessary for an unprecedented expansion of the Mission. The overall evolution in this world will call for a number of changes, essential to the continuity and well-being of our aspirants.

All is well and under our protection.

The Mission will withstand the turbulence to come; it is now well established on its foundations, and its inspired Master will always act for its good. So it is. Widespread blessings.
