Whispers from The Brighter World

Saturday, June 25, 2016 – 10:00 a.m.

This contact brings peace and harmony between our hearts. Sacred strongholds since time immemorial, these high places of spirituality are available to us for this extraordinary work that is carried out in our Mission. Such contacts give us the opportunity to express ourselves, to transmit in our own way, a very special energy so decisive in the evolution of each one. Your fervent heart calls to us and we respond with happiness; this ritual has existed for many years, and we do not tire of it, even if time, as in all things, imposes its limits here. These writings are and will remain a precious asset for our Mission. Everything evolves, everything changes on the material level, as it always has. *essential here is 'surrender', that which frees seekers from what is useless and saves them precious time. To all of you, the best there is.*
