Whispers from The Brighter World

Monday, June 27, 2016 – 10:00 a.m.

Life is a long series of experiences, joys, sorrows and everything that constitutes the Karma of each person. These notions of karmic laws are not yet well integrated in the West, as your cultures do not lend themselves to them. They are nevertheless a reality, decisive in the life of all. Nothing is forgotten, everything is counted and added to what already is. All the work done in this path of Sahaj Marg is a precious asset. It does not solve all problems, but it clarifies many situations.

The path of each of our abhyasis differs in its particularities, which result from many incarnations, all of which have brought about a diversity conducive to the construction, one might say, of what exists today. Who can say what life will be like tomorrow on this earth? Divine plans are not revealed on demand, they establish themselves in due course and each incarnated being must conform to them. The laws are the same for all, no one is spared, nor does anyone have access to the secrets of life in their divinely conceived forms.

Our abhyasis are carried, in a way, and it is worth it, rest assured, even if the divine laws are inescapable. So it is, we can say once again. These daily contacts produce a message; this is not common. It is intended to unite hearts, in this unusual spiritual journey, precursor of the great changes to come. Many souls are awakening this way,

and becoming aware of their reality in relation to the divine plans. The Masters of Sahaj Marg are distinct, they are the Chosen of a divine power, unique in its action. So it is.
