Whispers from The Brighter World

Wednesday, June 29, 2016 – 10:00 a.m.

We have said it often enough, the only true and genuine messages emanating from the 'Source' are here. These words are to be considered and above all, remembered. An increasing number of mediums are revealing themselves in our Mission; mediumship is not a rare occurrence, but the origins of some of these writings is more than doubtful; it is therefore advisable to remain vigilant in this respect.

What can we add to the thousands of pages that have been given and re-distributed over the years? Let us continue a little more before considering this material as definitively acquired and preserved among the archives and precious assets of this Sahaj Marg Mission.

The number of these messages is impressive, in fact unprecedented in history. Our dear Parthasarathi has made this clear enough. Although very reluctant at first, he soon recognised their importance and ensured that all brothers and sisters benefited from them.

Isn't that the goal, to bring forth a teaching that is a little different from what exists elsewhere! We cannot go any further in the present era, where open-mindedness is still limited to certain established rules, which it would be wise to overcome one

day. Everything in its own time, we cannot rush anything; the very fact that most of our abhyasis admit this principle of communication is worth appreciating. Everything evolves slowly in this world – each has its own laws, which are well established and inescapable. So it is, our blessings to all, united and supported in this action, which is special and so important.
