Whispers from The Brighter World

Thursday, June 30, 2016 – 10:00 a.m.

These messages are given so that all of them may be known to our abhyasis; why continue, if such were not the case. These writings are so numerous, they are intended so by the hierarchy of the Masters – this is a grace. All good things have an end, it is said; this one is being prepared, such is the destiny of all action here below. There are so many of these pages, that the occurrence is unique among its kind. It is to be considered with gratitude. The best is done in this path, to touch the heart of our abhyasis and help them to progress in this quest for the Divine.

The heart of the human being is a vast space where the best can be built. How can one assess it at its true value; one cannot, and yet, such beautiful things are accomplished in this space – oh so blessed by the Masters, when it is surrendered with fervour to their most special action. Here, an enormous work has been accomplished with these messages, for which the history of Sahaj Marg will remain marked and grateful, for what it represents. Nothing is done without reason in this field where the divine laws intervene at their discretion. The Masters of this Mission appreciate this divine manna, which is offered to them to better draw the attention of our brothers and sisters and to bring them a teaching that is not negligible. Such is this spiritual path, which constantly calls our attention; we follow it with love and much care. May all

our abhyasis become aware of this fact and appreciate it to the extent of their calling. Special blessings to all.
