Whispers from The Brighter World

Wednesday, July 13, 2016 – 10:00 a.m.

Whatever happens, these heart contacts will continue; they have marked the history of Sahaj Marg, with these thousands of messages, some of which have greatly helped our abhyasis, who are sensitive to their teaching. This fact is unprecedented, we have said it enough. It shows how this very special love has produced beautiful results. Our dear Kamlesh has all of these at his disposal, he only has too many to choose from, one might say. He has our constant support, carried by Love.

We so cherish him, and we support him – without, however, being able to spare him all difficulties. This kind of 'mission' is not without constraint; he accepts it in the best possible way, for the accomplishment of great things, which will forever mark this Sahaj Marg Mission – a way of the 'heart', unprecedented in its effects.

We will go no further today, dear scribe, may all our abhyasis take the best advantage of this teaching, under our blessings.

Babuji
