Whispers from The Brighter World

Saturday, July 23, 2016 – 10:00 a.m.

Our dear Parthasarathi has stepped aside, as his predecessors have done. Nevertheless, he watches over this Mission, and all the abhyasis who follow us benefit from our combined action, that of the Masters gathered in support of the chosen and current Master.

Time passes, but nothing changes unless it is for the better, since we all want the best for our practicants, in every respect.

May this celebration unite hearts ever more; this force produces the best that can be and creates this powerful egregore, which is specific to a spiritual way such as this one. Our blessings go to each of our brothers and sisters; may this union of hearts create the best – we see to it. Blessings to all.
