Whispers from The Brighter World

Tuesday, July 26, 2016 – 10:00 a.m.

This anniversary day has unfolded differently than in previous years, but the results are very satisfying and all of us here are delighted by it. This shows that changes can be positive – what results in hearts proves it, which does not mean that it will have to be this way from now on, for all the ones that follow. The Mission is spreading throughout the world, which entails, at certain levels, a number of difficulties of every sort. They are finding their necessary solutions, that is the most important thing. Faith, union of hearts and perseverance lead to the best. We follow very attentively the brothers and sisters; even if we cannot avert all the Karma of each one, our constant help obtains results that will one day reveal themselves for all, you can be sure. Surrender and confidence in action, inner reflection, and practice, transform a life – the best is yet to come, under our unceasing blessings to all.
