Whispers from The Brighter World

Sunday, July 31, 2016 – 10:00 a.m.

Serenity here is invoked, the connection with the Masters, the Divine in its essence, indispensable to life. The world is sorely lacking this inner peace, obtained through regular practice and a total commitment of the heart.

We see over time the results obtained on our path; they are cause for rejoicing. In the long run, they create a strikingly beautiful aura.

It is necessary to emphasise this, as this perception is not easily acquired. All our brothers and sisters are truly moving in the right direction. Faithfulness produces a perceptible and very significant transformation. In this bewildered world where violence is growing, it is laudable to glimpse this space where serenity prevails. Why would it not be? The Divine will change the world one day – once and for all.

Special blessings.

Babuji
