Whispers from The Brighter World

Friday, August 5, 2016 — 10:00 a.m.

Do not be so sad — you will soon see us again here on the celestial fields, where all your love will be able to express itself differently than it does today. In this matter, channelling is not enough; very powerful bonds of the soul are necessary for this action. These writings will remain the only authentic ones, carried by the love that binds us to our scribe and to all our aspirants. The large number of these messages is unique, as was underlined by our dear Parthasarathi. Their action in people's hearts will continue to grow and carry the vibration that flows from our united hearts to those of our brother and sister abhyasis, for their greatest good. We want the best for this Mission; the current assessment is already very positive, and this will not stop.

May this entire way of the heart fully benefit from this extraordinary action. Such is our dearest wish for all of you.
