Whispers from The Brighter World

Wednesday, August 10, 2016 – 10:00 a.m.

This action is unprecedented in the history of Sahaj Marg, and it will leave an indelible mark on it. Other ways of the past have also benefited from this process, the principle is not new. From time immemorial this method has been used to help humans; considered differently, it was accepted quite naturally. This communication with beings living on other planes of consciousness has always existed; is it not the simplest way to receive true information when it comes from a source as reliable as this one, the Alliance of the United Masters. Our Mission has this privilege, and it makes the most of it; these writings are here and must at all costs be protected from the turbulence to come on this planet. This is not for tomorrow, yet it is to be considered, which is only natural. This world is not characterized by its wisdom, but nothing stops us from being forward-looking. May all be strengthened and blessed.

Babuji
