Whispers from The Brighter World

Tuesday, August 16, 2016 — 10:00 a.m.

Stay serene, my dear daughter — you have always done your best to satisfy us. We carry you with love; you know this. What you are experiencing and doing is not in vain; it adds to the constructive aspects that already exist in the Mission. Time is doing its work, and we are supporting the Mission in its expansion in the best possible way. Our beloved son Kamlesh is also doing all he can. He sees into the future and works accordingly. We are constantly by his side, even if we cannot spare him everything as we would like to do. Inevitably, the laws of life manifest; they strengthen human beings in the face of their destiny in order to help them grow and proceed with their quest towards the ultimate goal.

May the best be fulfilled under our very special blessings.

Babuji Maharaj
