Whispers from The Brighter World

Wednesday, August 17, 2016 – 10:00 a.m.

This noisy environment is not conducive to the needed serenity; let us go beyond it if possible, my dear daughter. This long journey of messages has known some turbulence; the faith and surrender necessary for this work have made it possible to obtain the best – a celestial manna that is unparalleled. This very special love creates a particular atmosphere in which a transmission takes place, specific in its effects. Sahaj Marg has many resources that to this day are still not recognised, though they will be in the future, when they will truly be compatible with the vibratory level. Many changes will take place, and humanity will adapt as it has always done since the earliest times.

Evolution on this Earth must go through many vibratory states; everything has been planned and ordered perfectly. Sahaj Marg will continue on its course, and its expansion will be unprecedented. The best to all, under our very special blessings.

Babuji
