Whispers from The Brighter World

Friday, August 26, 2016 — 10:00 a.m.

These moments of peace and meditation fulfil an ardent soul thirsting for an extraordinary vibration — one that exists here in this very long-standing transmission between your heart and ours. It has resulted in these thousands of messages that are so very precious to our Mission. They will remain the only ones — unique, and carrying a vibration that will defy time. Imitators abound; the truth is untouchable and secure, and it will leave its mark in people's minds. We will not dwell on that any further. Our continuous blessings are bestowed on this Mission that is so dear to us.
