Whispers from The Brighter World

Thursday, September 1, 2016 – 10:00 a.m.

Forget this world and its baseness, and plunge into yourself, into the heart of silence where this unique contact with us is established. This event is longstanding; it has produced thousands of pages where words coming from the Assembly of united Masters have been written. They are not insignificant, you can be sure, and they will leave a mark on this time when, out of absolute necessity, the current world has moved on.

These repetitions have their purpose, they create the necessary vibration to touch the sensitive points of the being connected with higher planes. Do human beings know themselves? It does not seem so. The subtlety that characterises them is still unknown to science, which is very advanced in other areas. All in good time. Humanity must remove itself from vibratory heaviness to access a higher level of knowledge. This is in progress; we cannot rush anything, only prepare people's minds in our own manner. The process will be very beneficial. So it is. Blessed be all our brothers and sisters.
