Beloved Master
Revered Babuji Maharaj

Whispers from The Brighter World

Saturday, September 3, 2016 — 10:00 a.m.

Be at peace. Open your heart to the fullness of the Spirit, this very powerful energy bestowed by the Masters of the hierarchy, who are united in this spiritual advancement — one that is unprecedented in history. They literally carry the living Master, who does not truly realise it; this is nothing new, and it is good that way. Being the living conduit of a power about which he has no idea, he nevertheless relays it very widely across the entire Mission, which is already nourished abundantly. The Sahaj Marg way will influence this time and leave a highly significant mark upon it. Although very small in the beginning like other major paths before it, this way nonetheless follows a brightly illuminated path. Commitment and perseverance lead to the best; beautiful souls are emerging more and more, strengthening this aura that is, somehow, exceptional.

To all, peace and courage in following this unparalleled journey, under our very special blessings.
