Whispers from The Brighter World

Tuesday, September 6, 2016 — 10:00 a.m.

Regain in your heart a space of peace and love, this very strong energy that carries you every day through these uncommon contacts. These messages are not ordinary. They emit a special vibration that will take on its full meaning in the future. The world is preparing for unprecedented changes; there comes a time on Earth when everything must evolve significantly. Stagnation does not bring about anything good. So much violence and negativity have grown and spread here below that they affect and disturb at levels where they should not. Our Mission has a role to play on various levels of consciousness; we see to it that it yields the best in order to meet the expectations of higher powers. All in good time. Let us carry on our action towards the good and the expansion of consciousness, so that humanity will one day be transformed and access the best.

Blessings to all.
