Beloved Master
Revered Babuji Maharaj

Whispers from The Brighter World

Friday, September 9, 2016 — 10:00 a.m.

Let yourself be carried on the wings of love; this love emanates from our hearts and from the power that guides them through this uncommon process. Our Mission benefits from solid advantages, including a living Master who uses the existing means of communication to reach out to all our brothers and sisters, wherever they may be in the world. We did not have this privilege. Nevertheless, Sahaj Marg has made progress and reached this current stage, surely a very valuable position. What we promise comes to fruition — this is not merely a nice thought, but rather a reality that will leave its mark on these times. The current Master's action will definitely consolidate that which already exists. In the future, ashrams will become points of light in this world — a world of darkness, as we see it. They already hold a significant place, one that will continue to grow, as will the thirst in people's hearts for the Divine.

May all our brothers and sisters be strengthened in their quest. We ensure that they are offered the best, with all our blessings — once again, for a just cause.
