Whispers from The Brighter World

Sunday, September 25, 2016 – 10:00 a.m.

You have given a lot and still you give, much more than you think. Our messages are part of this extraordinary action, whose effects are immeasurable but produce very significant results, you can be sure. The vibratory world is beyond current knowledge, at least in this particular field where communication is productive and materialises through these writings. They will defy time and will be appreciated more and more. It is up to each one to become aware of this and to benefit from it as much as possible. We bless and support our brother and sister abhyasis in our own manner, for their good. Endless blessings.
