Whispers from The Brighter World

Saturday, October 8, 2016 – 10:00 a.m.

What a work has been achieved here! The rereading of this very old message from the Master Parthasarathi touches you. Such a long way we have come. Despite your doubts at the beginning, love and trust have resulted in the accumulation of these thousands of pages, and have produced such a treasure. The word is not too strong; in circumstances like these, time allows one to assess this kind of event at its true value. It is unusual for such a large number of writings emanating from the Source to be disseminated as these have been.

The history of Sahaj Marg is not ordinary; in many respects it is different, and above all it produces very satisfactory results, you can be sure. Thus are fulfilled the wishes of the entire Hierarchy, so attentive to their great and blessed son Kamlesh, who is accomplishing great things – and will do so even more in times to come – for this Mission that is so important to all of us here. Unprecedented in its action upon open and receptive hearts, Sahaj Marg will amaze, one might say.

So it is – by the Grace of God and the united Masters, for the good of all, with our Blessings.
