Whispers from The Brighter World

Tuesday, October 18, 2016 – 10:00 a.m.

Join us in this space where the vicissitudes of life have no access. Here, peace and harmony allow this exceptional contact. It will remain unique, no matter what happens. Beyond channelling there exists a very special bond between our hearts, and that will not be replicated. Enough messages will have been given to meet the needs of our Mission.

We will communicate differently with our dear Kamlesh, when that will be necessary, to reassure and reinforce him in his actions. Major decisions will have to be made in the future, and they will be decisive for an unprecedented expansion of this beautiful Sahaj Marg Mission. Time clarifies situations and gives them their full significance. This 'way of the heart' will not cease to surprise – its effects will keep growing, carried by transformations in accordance with future necessities. All in good time. To each, the best there is; everything is coming into place for the better.

Very special blessings to all.

Babuji
