Whispers from The Brighter World

Monday, October 24, 2016 – 10:00 a.m.

Regain serenity, all these worries are going to find their solution – how could we leave you in a constraining situation. You put up with enough otherwise. Our heart connection, as you know, is not ordinary. It contributes to this relationship having favoured the writing down of such a great number of messages. This fact is unique, we have said it often enough. Their vibrational charge cannot be appreciated in human terms, but it does its work in all subtlety, with our faithful readers. Their action goes far beyond this world, and this is not common. May all our abhyasis one day give them the attention they deserve and consider them at their true value. Only these emanate from the true source; wanted and appreciated by the higher powers, they are imbued with a rather special vibrational energy.

Be at peace dear soul, all is for the best. This beautiful Sahaj Marg Mission is progressing; our dear great son Kamlesh is contributing to it in his own manner, and greatly so.

Blessings to all – the alliance of Masters is attentive more than ever to this most beautiful and great way of the heart.
