Whispers from The Brighter World

Wednesday, October 26, 2016 – 10:00 a.m.

Open your heart to this ineffable energy, that which emanates from ours, focused particularly at this time on this unique Mission. Time will justify these words, that what is involved in such a transmission cannot be evaluated in human terms, at its true worth. The future will show the effectiveness of the work proposed here.

Many sensitive points will become clear thanks to an unprecedented advance, especially with regard to the vibrational approach of the human being, in all its complexity, with zones that are particularly important and even decisive in a spiritual advancement as proposed in this way of the heart.

The latter is the undisputed Master of the domain. A day will come when it will be revealed in all these aspects, which are ignored in the current era where matter dominates in many respects.

Beyond lies another life, another space where the most important is accomplished; this matter is a vehicle, a driving force for action, in the service of a much more subtle practice that is connected with the psychic centres not yet identified in their reality.

This time will come; Sahaj Marg is working in this direction and will do so more and more. So it is. Special blessings to all.
