Whispers from The Brighter World

Friday, October 28, 2016 – 10:00 a.m.

The Sahaj Marg Mission is moving forward, in its own way. It is adapting to a certain extent to the needs of present-day life. Our work takes place primarily on the spiritual level although some positive effects also occur on the material plane – that is in the order of things. We would like a perfect world where all our abhyasis could devote themselves in full tranquillity to their practice. That is not achievable in these current times when negativity is emerging from this cesspool, without everything being resolvable as we would wish. The future will brighten for good reasons; the shaping of a better world is in the making. Everything happens very slowly here below, at the vibratory rhythm that characterises this planet Earth. We must take into account its distinctive features, all that it can offer and that is not exploited. The time has not yet come when a radical change can take place, for good. The order of things is to be respected; evolution happens slowly, following a predominant and unavoidable rhythm.

We have great admiration for such rigor, which fosters a remarkable action concerning human evolution. Is it not said that 'everything has its raison d'être' – it is fitting to conform to the laws, while bringing to this world elements favourable to the unfurling of spiritual life, in all the necessary amplitude.

This time will come, you can be sure, we are working towards it.
