Beloved Master
Revered Babuji Maharaj

Whispers from The Brighter World

Wednesday, November 2, 2016 – 10:00 a.m.

Your heart has bathed in our energies for so long; you are the chosen and beloved medium of the entire Hierarchy of Masters, where your totally selfless action is appreciated so much.

Do not be embarrassed; our dear great son Kamlesh also benefits from this communication where we help him in our own way. He is most precious to our hearts; trained by us for a long time, he has all the elements and potential for this path of Sahaj Marg to continue its trajectory, towards the summit of the heavens, through a complete action that is material and spiritual at the same time. Endowed is he with an active vision, which will be further refined according to the events to come. Our confidence in him is total, and we are all at his side as never before. The Mission is reaching such a point of impact today that it cannot be measured and appreciated at its true value; a time will come when it will be so, to our greatest joy. May all our brothers and sisters be motivated and support their Master with love and consideration for the work that is being done in the shadows yet in an effective and, above all, sustainable way. Everything is to be taken into account, everything has a raison d'être. May peace and love carry this Mission, more than ever.

Babuji
