Whispers from The Brighter World

Wednesday, November 9, 2016 – 10:00 a.m.

To repeat is necessary, we have said it often enough; what would this world be without these incessant repetitions, at all levels constituting life as a whole. All things, always, are renewed here below for the same reasons – the movement of life as intended and designed by the creator of all things. We are only the executors of this divine power, endowed for certain beings with particular missions aimed at helping humankind. Everything becomes clearer over time when special help is provided for that purpose. A spiritual path can take its place in this grand divine scheme. Each one of the past centuries has favoured its coming and expansion for the good of humanity, by responding to aspirations, customs, different races – countries where the diversity is such that it requires rules and laws in conformity with these. The path of Sahaj Marg is simple in approach, it is intended so, and it is easy to adapt to it and to fully enjoy its benefits. These only become apparent with time, and are not trivial, you can be sure.

The simplicity of approach does not exclude results that are barely believable for the average person.

All this is quite real and, above all, we are very happy about it. The years accumulate results – they are very pleasing.

May all our abhyasis benefit fully from this heavenly manna.
