Whispers from The Brighter World

Tuesday, November 15, 2016 — 10:00 a.m.

In you, as in each of our abhyasis, there is a sacred space where the best is accomplished. At the heart of each cell of the physical body, divine energy is manifested — an energy that is so mysterious to human beings. While it is little understood, and above all not accepted for what it really is, it nevertheless exists and gives evidence of the manifestation of a power that will one day reveal itself in all its reality and be recognised as such.

This world must grow and open up to knowledge — the true knowledge, which will be decisive for an unprecedented advancement. It is high time to go beyond the barriers of illusion, the barriers of everything that obscures and deviates from a truth that is essential to the progress of humanity. In its own way, Sahaj Marg opens up possibilities. They are not yet recognised as they should be, but all in good time — we cannot force anything. This path fosters a progress which the future will make a reality; it is good to know this, and to work accordingly. This world cannot eternally stagnate in a limited knowledge of phenomena. A planned evolution will be brought about at different levels. We are preparing it in our own manner so that it manifests entirely as we wish, for the good of all.

It is up to each one to become aware of this and to act for the best.
