Whispers from The Brighter World

Wednesday, November 16, 2016 — 10:00 a.m.

Everything in its own time; important changes will occur in this world. Let us repeat that it is necessary to prepare people's minds for that. This is what we are doing. Our brother and sister abhyasis must get used to this idea and, above all, they should progress in order to better deal with what tomorrow's world will be — a world in which an unprecedented open mindedness will occur. We are making the necessary preparations for this in our own manner. Our dearest Kamlesh is working accordingly in his domain of responsibility; he will know how to handle events, in which the challenges will lie.

Everything will be done at the opportune time. Evolution is necessary; from its beginning, the world has constantly changed according to the needs of the moment. Spirituality will unfold more and more and will become necessary for human beings, who will be disturbed by substantial vibratory changes. A different life will prevail; it will not be to everyone's taste, but the evolution of humanity goes through cycles which are inescapable. In the future, Sahaj Marg will surely become an important refuge. Today's abhyasi is a forerunner, an envoy in a way, whose role is to contribute to the growth of this spiritual path that will leave a significant mark here below. Human evolution proceeds very slowly, at its own pace. Thus the higher will is accomplished; we conform to this, and the Sahaj Marg path sets a fine example. The future will give it considerable importance.

Very special blessings to all.
