Whispers from The Brighter World

Monday, November 21, 2016 – 10:00 a.m.

Our dear and great son Kamlesh has passed a significant milestone. It is not easy to reach the level of spiritual Master of a Mission that has such an impact in the world. This impact cannot be measured but it is real, you can be sure. He now has the necessary means at his disposal for the best to be accomplished.

Everything takes place at the desired pace in order to meet the Karmic requirements that punctuate life on this Earth. Many aspects escape human understanding – why so many trials, so much physical and mental suffering? Acceptance is necessary; what else can be done! It helps one to understand, to grow in wisdom, and to pass through stages that are significant in many respects. The practice of Sahaj Marg has very positive effects which are measurable and not a figment of the imagination.

This world is thirsting for the Divine without understanding it, and seeks on the material plane that which cannot really fulfil it. Everything is so complex here below. Human beings advance very slowly in their self-discovery; many incarnations are sometimes needed to open the doors of true knowledge. Here begins a path that elevates the soul towards its highest destiny. Let there be light, and may it carry each of our aspirants. Special blessings.
