Whispers from The Brighter World

Friday, December 2, 2016 — 10:00 a.m.

These messages have an importance which none of you can imagine; only time will grant them the interest that is their due and bring to light their true value. Our dear Kamlesh will contribute greatly to this. His vision is broad, and this is an asset that will serve the Mission as a whole. In the future, the Mission will take on a scope that is currently inconceivable. We are repeating this, but how can we do otherwise? The impact the Mission has on hearts will continue to grow. The future opens people's minds to this aspect that is essential to life in all its reality — namely, a true spirituality capable of turning certain negative aspects into positive ones, which is not insignificant. The Sahaj Marg Mission has already made progress that could not be imagined at the beginning. Thus began other beautiful spiritual paths that now hold a sizable and special place. Ashrams are important; they are charged with a special energy that is humanly undetectable, though you can all be sure it is real.

May the greatest number engage in this way of the heart which generates the best in the hearts that are committed and fervent. We support all our brothers and sisters and respond abundantly to their calls. That is how it is, may we say once again. Blessings to all.
