Whispers from The Brighter World

Monday, December 5, 2016 – 10:00 a.m.

Come and rejoin us in this very special 'space' where you aspire to find us. This ritual has already existed for so long that it seems the most natural thing. Our energies carry you and cover the entire Mission in every corner of the world. No one is forgotten, you can be sure; we follow all our abhyasis wherever they are in the world. All are united in the same aura, which shines brightly in the kingdom of heaven. It has expanded over time, asserting itself more and more for an unprecedented action. Certain facts cannot be demonstrated objectively, but the reality is there, both for us and for all of you, to a very large extent. These phenomena cannot be explained; they are beyond human comprehension, and this guarded domain keeps its mystery well. It is nevertheless active and even highly productive. That which cannot be achieved humanly is brought about by other means, according to well-established laws that are very active in every respect.

Knowledge in this field is still very limited. The time has not yet come when it can be unveiled, but come it will, this is certain. We are preparing abhyasis in our own manner, very far from current human criteria that fall a long way short of reality. Everything in its time; humanity cannot change as easily as we would like. What matters are the prospects that are taking shape in front of us and that allow us to foresee the best, particularly for this beautiful path of Sahaj Marg that is so dear to us.

We wish you all the best.
