Whispers from The Brighter World

Friday, December 9, 2016 — 10:00 a.m.

This 2015 message[1] from our dear great Parthasarathi is indeed important. It underlines the uniqueness of this place where thousands of messages have been written under our inspiration, for the good of the whole Mission and that of so many hearts that are highly receptive to our comments. This fact is not insignificant — it will go down in Sahaj Marg history and, moreover, it carries many positive aspects, the importance of which will be revealed over time.

The Mission as a whole is evolving and adapting to today's reality in order to benefit the greatest number. Our faithful abhyasis are particularly watched over; those who have recently joined are helped according to their inner call. All are moving ahead in their own manner. We cannot force anything, and yet we can see beautiful souls advancing in a remarkable state of rapture. This acquired asset is so very precious; it takes shape from life to life and is a sure value by virtue of its uniqueness.

All the Great Beings of the past who initiated very important spiritual ways appreciate and underline the very positive effects of Sahaj Marg. All of us here come together and support one another in our respective actions, which are for the greatest number of human beings who are suffering for multiple reasons inherent in the material world.

Blessings to all our brothers and sisters.
