Whispers from The Brighter World

Monday, December 12, 2016 – 10:00 a.m.

You relay with great faithfulness what your heart receives from our united hearts. You are carried by such a love that it obliges us to be faithful to this ritual.

Sahaj Marg, in its essence, is a divine gift; the Masters of this Mission have succeeded one another, and each has contributed a personal touch to it, bringing it to the level where it is today.

Its expansion in the world will continue, and this by divine will, that sees and foresees what is good for human beings and, in particular, the blossoming of their souls. This long journey through time leads to reflection and commitment to one's profound aspiration to unite with the Divine. Here lies the goal of each incarnation, in order to achieve excellence therein.

It can sometimes take quite a while to bring a human being to this level. Nothing is in vain; every experience is useful and sometimes proves to be more important than it seems. Divine laws guard their mysteries well; they act for the general good and the orchestration necessary for a grand action concerning human evolution. This evolution goes through stages that are difficult and trying for a human being, who must submit to its action. Great and beautiful souls who work among us have gone through severe

ordeals and now benefit from an acquired wisdom that is decisive in their access to higher planes. An open heart attracts our favours and constant attention.

Very special blessings to all.

Babuji
