Whispers from The Brighter World

Thursday, December 15, 2016 – 10:00 a.m.

The Sahaj Marg Mission is growing, so is its force of action. Dispersed throughout the world, it creates a significant vibratory web, you can be sure. This action is subtle and operates at important levels that are particularly appreciated as far as this aspect of things is concerned. Our path distinguishes itself in that respect: it works for the good, with such simplicity, yet with an efficacy that is remarkable to those of us who can assess the full measure of its positive effects. A new era is dawning and being prepared slowly to better secure its foundations and the far-reaching effects it will generate. Everything is called to change on this planet Earth, where important cycles have made it evolve as required, according to the higher will. This will is inescapable; everything is planned and counted in the slightest detail. The apparent chaos prepares and puts into place elements that will become decisive in the future. Everything is to be reconsidered. Since the dawn of time the human being has always adapted to cosmic requirements, and that will not change. To all our brothers and sisters, we wish commitment and progress towards the goal, while working accordingly for the best.

Thus is accomplished what must be. Blessings to all.

Babuji
