Whispers from The Brighter World

Friday, December 30, 2016 — 10:00 a.m.

These messages bring mutual happiness. They do not give rise to weariness on our part — nor on yours, it would seem. These thousands of written pages constitute a real asset, as we have said often enough; what is done out of love is and will remain very special, as the future will demonstrate. This refuge is not commonplace and is a precious asset. There is so much prevailing negativity about which humans have no idea — such negativity, violence and harshness are the characteristics of present times.

All aspects of pollution are detrimental in more ways than one. It is not our habit to allude to it, but when it disturbs human beings to such an extent, this becomes necessary. Our action in this domain is not obvious, as everything on Earth would have to be reconsidered for that to happen — but the time for this has not yet come. As the saying goes, everything in its time; humanity must go through different stages, so that everything is clarified as planned. We are working in our own manner with our own means — spirituality is much more important than humans consider it to be. For its part, Sahaj Marg is increasingly active, and it is good to witness this. The awakening of consciousness, the call of the heart towards this sure thing, the 'safe bet' of such a spiritual process, is and will remain a real asset for humanity.

Special blessings to all.
