Whispers from The Brighter World

Sunday, January 15, 2017 — 10:00 a.m.

This story made up of messages will not only remain unique but will also leave a definitive mark on the Mission. Why can we not repeat that which is and will be? So many imitators are already in action — how to stop them? Egos are strong in this particular case; such is the human race. Isn't the most important thing the existence of these messages and the fact that they help many of our brothers and sisters who are in need of this kind of teaching? Each of the important paths that has left its mark on time for many centuries relies heavily on this form of practice. Thus we transmit in our own manner a special vibration that characterises Sahaj Marg.

This way of the heart offers many resources, some of which will be revealed in the future when the right moment comes. At our level, we thank the divine power for its very special gift to us; this privilege is appreciated, and so will it surely be — more and more. Minds are opening up to this extraordinary transmission which will, in the future, reveal all the subtlety of its action.

Ceaseless blessings to all.
