Whispers from The Brighter World

Monday, February 20, 2017

Time will lend to these writings an importance that cannot be expressed today. The world of the Spirit as you conceive it is preparing a magnificent future for this Mission, adorned with the most beautiful colours; such is the divine will. Our dearest Kamlesh is prepared to do the best possible. He does not himself imagine the results produced by his action; they are multiple and unprecedented at this level. The hierarchy of the Masters assists him happily; thus is being established the heavenly pact to lead humanity to the maximum of its spiritual expansion here below.

Blessings to all.
