Whispers from The Brighter World

Tuesday, February 28, 2017 — 10:00 a.m.

Love, this very rare energy, is being invoked here to express that which is worth spreading in this moment of connection between our hearts. This long journey of messages has generated the best — it is good to recall this, and to emphasise once again the importance of these contacts that help bring about an extraordinary awakening in all abhyasis. Everything happens so slowly in this world; the awakening of souls cannot surpass that which is planned by the higher powers. They are preparing in their own way a global expansion of spirituality that will forever leave its mark in the world. Commitment and perseverance will lead to unprecedented progress.

Special blessings to all.
