Whispers from The Brighter World

Thursday, March 2, 2017

Here takes place this rendezvous of the heart, so important for so many of our abhyasis. Rituals mark our Sahaj Marg Mission through transmissions of very special energy which characterise a meditation simple in appearance but much more productive in its effects than it would seem. How many fervent beings unite through thought, the heart, the central axis of this action, to call upon the Masters to support the work of the incarnate Master. This is the centre point of this vast universe where spirituality reigns; there the best is accomplished, under the effect of a concerted action.

May the best be realised, and strengthen – oh so greatly – this unparalleled egregore. Special blessings to all.

Babuji
