On this day particularly, you should be, all the five of you, united in spirit and in the love of Master. We will do the rest. We will come towards you to honour our daughter and to thank you for the work you are doing with all your heart. This is not a day like the others; however appearances will show nothing special but everyday life and usual aspects. The peculiarity lies on a plane, subtler and not very perceptible with your senses. Be very assiduous in doing this interiorization work, which we ask you to do. We repeat ourselves; don't weary to hear us always saying the same thing, although we address the topic from various angles. We must sensitize you on this aspect and it is by insisting that we will manage. Your hearts should form a circle, in this meditation, around our beloved daughter. We bless you all."
