Whispers from The Brighter World

Saturday, March 4, 2017 – 10:00 a.m.

This contact will be brief, yet sufficient to express what is fitting. Words necessarily reappear, and each time they touch on a different space, imbued with the love of the Masters, with a vibration specific to an unprecedented action. Thus is the Sahaj Marg Mission characterised, as intended by the Hierarchy, and that for good reasons. All this is the result of a higher will, well determined to provide a method that is very effective and liberating beyond appearances. Repetitions are more than necessary; they strengthen a vibration whose action is unprecedented. May the greatest number benefit from it and amplify a specific and liberating action.

To all, peace and serenity.

Babuji
