Whispers from The Brighter World

Monday, March 13, 2017 – 10:00 a.m.

Your present situation is not easy to experience, but you are surrounded as we wish, my dear daughter. These messages pass through your heart, inspired by ours.

This beautiful story is not ordinary. Our Mission benefits from this not insignificant asset, and our scribe was chosen by the entire Hierarchy – which is to be borne in mind here. Sahaj Marg has many resources, and we are happy to see how much it helps our abhyasis. We hope to go ever further in winning over hearts and, above all, achieve an unprecedented expansion of consciousness.

The hierarchy of Masters is attentive to what is being done – at all levels – and to that which is currently being accomplished in Hyderabad. Our dear great Kamlesh is attentive to it and will tend to it more and more. The future is, in a way, over there, even as its potency in the world is becoming clearer and will become evident.

Special blessings to all.

Babuji
