Whispers from The Brighter World

Friday, March 17, 2017 – 10:00 a.m.

This world is not one of perfection. A lot of efforts are made with that aim in mind, without one being able to achieve it. The possibilities offered to us are not insignificant. They help build a solid world for the construction of a life more in tune with the deep aspirations of human beings. A great deal of time will be needed for everything to conform to the divine plan and, above all, to be achieved in the best conditions. A human being has high hopes, and they are not easy to achieve. Our way of Sahaj Marg is advancing more than it seems, you can be sure; faith and determination will help to reach the goal. Love, perseverance and true commitment are the best guarantees.

So it is.
