Whispers from The Brighter World

Saturday, March 18, 2017 – 10:00 a.m.

Nothing is ever simple on this Earth; many difficulties arise on the most promising path. The Sahaj Marg path helps one to understand the need for a real commitment. Anything that can simplify life is significant; each incarnation defines the path and allows the human being to clarify his or her way. Thus, everything can take its place according to the divine laws. There is a long way to go to reach the goal; the way of Sahaj Marg contributes in its own manner and saves precious time. Thus, all is well within our way, willed by the higher powers and supported by the Masters who are working appropriately on this Earth.

To all the best, under our blessings.

Babuji
