Whispers from The Brighter World

Monday, March 20, 2017 – 10:00 a.m.

This heavenly manna of messages will cover the world, and do so for a very long time. These writings carry a subtle energy and they will be appreciated more and more, you can believe it. In the future, our Mission will have a growing place in the world, when spirituality will develop in response to a call that is justified and ever deeper. The times are changing, and minds are opening up to the benefits of an action, as it is being addressed in this age of spiritual openness, like never before.

India has always been, in this regard, the beacon of the world, and it will become increasingly so, and this for good reason. [Here is] a spiritual approach that is not imposing, yet one that allows important and redeeming aspects to be addressed.

To all our brothers and sisters, the best that can be; an important space is being created here for all our abhyasis whose imprint will be deeply etched over time.

All our blessings to all of you.

Babuji
