Whispers from The Brighter World

Wednesday, March 29, 2017 — 10:00 a.m.

This heart-to-heart meeting with your dearest son Kamlesh was so very blessed. In certain circumstances, words carry a very precious force of action, much more than it would seem. Sahaj Marg will continue to grow; the ashrams are points of light in the world, and their benefits will generate unprecedented transformations. Everything will be done in our way to broaden the scope of action of elements that are already in place. Going to what is essential — there lies the important thing; may all our abhyasis become aware of the progress made within such a spiritual movement. India has long been the high place of spirituality, and this will not change. Every step in one's life is decisive, defining the destiny of each person. Doesn't everything have its raison d'être? The passing time sheds light on the elements that are essential to building one's life, as governed by the laws of karma — laws that cannot be circumvented.

Special blessings to this entire Mission, led by our extraordinary son Kamlesh.
