Whispers from The Brighter World

Thursday, March 30, 2017 – 10:00 a.m.

Hyderabad will become the 'high place' of Sahaj Marg. It is being built slowly, but its radiance will be beyond what is imaginable today. Thus have sites risen up in the world, which centuries later still impose their grandeur and their vibratory power. Our Mission too will stand out, with places that are quite remarkable in many respects. What must be done will come about in its own time.

The Masters are watching over, with great attention, what the Sahaj Marg Mission produces at all levels. What a distance traveled since 'Shahjahanpur', where the attention of the Divine created this Mission, allowing Sahaj Marg to develop in the world. It was awaited, oh so much.

Time shapes beings on their personal journey, and the spiritual element is the most decisive in one's life.

May all realise this and gain precious time – in this incarnation. Special blessings to all.

Babuji
