Whispers from The Brighter World

Thursday, April 6, 2017 – 10:00 a.m.

Each of the Masters thus far has received what was necessary, in order to transmit it in this Mission. The way of the heart, it is called; a sensitive work is being done on the determinant points of the being for a real spiritual advancement. This is not common; it results from the consultation between the Masters of the past, assembled to actualise a method that is effective in its totality according to the necessity of present times. We here can only rejoice. Since the beginning of this action, real progress has been achieved. It constitutes an advancement in this domain – one that is truly necessary at this time when energies are going in all directions such that humanity is destabilised by actions that are strange and regrettable for the general good of all. Spirituality, approached appropriately, is and will remain the true wealth of humanity. May all become aware of this and act accordingly.

Blessings from all the Masters, united in constant support of our very dear Kamlesh.
